

AIA NEPA will present the documentary “**Visual Acoustics - The Modernism of Julius Shulman**” on April 27, 2010 at 6:00 PM at Marywood University, Comerford Theater, Center for Natural and Health Sciences. Following the film, there will be a question and answer session with the film’s director, **Eric Brickner**.

Narrated by Dustin Hoffman, **VISUAL ACOUSTICS** celebrates the life and career of Julius Shulman, the world’s greatest architectural photographer, whose images brought modern architecture to the American mainstream. Shulman, who passed away this year, captured the work of nearly every modern and progressive architect since the 1930s including Frank Lloyd Wright, Richard Neutra, John Lautner and Frank Gehry. His images epitomized the singular beauty of Southern California’s modernist movement and brought its iconic structures to the attention of the general public. This unique film is both a testament to the evolution of modern architecture and a joyful portrait of the magnetic, whip-smart gentleman who chronicled it with his unforgettable images.

RSVP to Brian D. Doran, AIA (H+C Architects) bdoran@hc-architects.com or 570-961-1302.
